Woman-Led Top Workplaces offer environments where employees feel empowered, supported and connected to meaningful work, setting the standard for empathetic leadership, work-life harmony and happy employees

2024 Woman-Led Top Workplaces

Woman-Led Top Workplaces set the standard in their respective industries. Winners receive the designation based on employee surveys. The survey results become part of the industry's most comprehensive benchmark of employee attitudes and perspectives on corporate culture. These benchmarks include 25 core statements covering benefits, pay, work-life flexibility and questions about whether employees feel respected, supported and empowered.

The 2024 Woman-Led Top Workplace survey is conducted by [Energage](#) in partnership with [Innovation Women](#) and [Lioness Magazine](#).

Sylvia J. Megret
President & CEO

ACDI/VOCA is a global development design and delivery partner that has implemented effective economic and social development projects in nearly 150 countries since 1963. We empower people to make positive changes in their lives by applying our expertise in sustainable agriculture, resilience, economic opportunity, access to finance, and equity & inclusion to create meaningful, lasting impact. ACDI/VOCA is a trusted implementing partner for the U.S. Government and responds to non-USG official development assistance (ODA) and host country government opportunities to foster broad-based economic growth, raise living standards, and create vibrant communities.
